## SCHOOL REPORT.

---

DIST. NO. 1. and 13.—Summer term; Miss H. J. Noyes was engaged to teach this term but, on account of sickness, was obliged to give it up after two days work. Miss Rose Austin was engaged to teach in her place. Miss Austin came well recommended, but failed to get the school interested in their work, therefore the term was not as profitable as it otherwise would have been, and after teaching eight weeks closed the school.

Fall term of 14 weeks, taught by H. J. Noyes, on account of school closing one day sooner than expected, did not visit this term but once. But have no doubt the term was a profitable one.

DIST. NO. 2. and 12.—Summer term of 10 weeks, taught by Miss Bertha Wayland. Miss Wayland got this school interested to a greater extent than is usual for this school. She is a teacher of more than average ability to govern and instruct an ungraded school.

Winter term of 12 weeks, taught by E. E. Tuell. Mr. Tuell is a practical teacher and has had a large experience and this term's work showed good discipline and thoroughness.

DIST. NO. 4.—The year's school has been taught by Alice G. Morse. Miss Morse is a teacher liked by both parents and pupils, her work is thorough and systematic and the work for the year was satisfactory.

The house in this district should be thoroughly repaired and made more comfortable and convenient for both teacher and scholars.

DIST. NO. 5.—This school has been under the management of Angie E. Penley throughout the year. Miss Penley works hard for the interest of her scholars and therefore makes a successful teacher.

DIST. NO. 7.—Summer term of 10 weeks, taught by Miss L. M. Robbins. Miss Robbins has had a large experience in teaching, but it seemed to me that she was not quite up in discipline, although a good amount of work was accomplished and was thoroughly done.

Winter term of 12 weeks, taught by A. A. French. Mr. French sustained the reputation he gained last winter in teaching. He is without doubt a valuable teacher for any school, his work is thorough, practical and to the point. Just the kind of teacher to have in our town schools.

DIST. NO. 8.—The school in this district has been under the charge of Fannie E. Brooks for the year. Miss Brooks did good work in this school and I feel that the money was well expended.

DIST. NO. 10.—Spring and summer terms taught by Mattie D. Tracy. Miss Tracy is a very valuable teacher, knows just how to manage a school to get the best results. Both terms were profitable and highly satisfactory.

Winter term of 10 weeks, taught by M. Florence Howe. Miss Howe, I think, worked hard, and with only the scholars of Locke's Mills I think would have taught a profitable term. But there was a certain element that came from out of the district which needed a stronger arm than the majority of female teachers possess in order to properly govern the same.

DIST. NO. 11.—This school has been for the past year under the instruction of Jennie E. Coffin. I think if the parents in this district would work as hard for the best interest of their scholars, as Miss Coffin has in the past, that the result would be much more satisfactory to the teacher and also to your supervisor. It is very evident that something should be done to the house in this district to make it more comfortable and attractive.

## REMARKS.

Fellow townsmen, if you examine our annual school report you will see wherein we have made some changes in our schools during the past year; one reason for so doing was because we did not have money enough to support the number of schools which we were in the habit of supporting and give them all the number of weeks which the law requires. Another reason was we thought that by uniting the small districts with others there would be more interest shown; and in that respect we were not disappointed, for in one instance, at least, the best attendance was from the scholars carried from the small district. I know there has been some dissatisfaction in regard to the way in which we made arrangements for the transportation of scholars; but I think I can see wherein the trouble lies; and I think it can be arranged so it will be more satisfactory all around, and not be any more expensive.

Parents should take more interest in our schools, do more visiting, and thereby encourage both teacher and scholars. Did you ever notice how much a teacher's interest is governed by the interest shown by the parents of the scholars she was teaching? I am aware that I have made some mistakes during the past year, which can easily be avoided in the future. It seems to me it is the duty of all good citizens to do what is in their power to make this new school law a success; for upon its success depends the school privileges of all our scholars, and gives to each scholar an equal chance with every other scholar in town, which they never did and never could have under the old district system. Respectfully submitted,

G. W. RICHARDSON, Supervisor of Greenwood.

GREENWOOD, FEBRUARY 15, 1895.

Your school committee have made the following recommendations for the coming year:
